

Lab Rules

- ◉ With a partner, come up with at least 10 important lab rules

Lab Rules

1. No food or drinks (including water)
2. wear eye protection at all times
3. follow instructions
4. Don't take chemicals out of lab
5. long hair must be tied back
6. don't run.
7. Closed toe footwear

8. Do not eat or drink anything or any part of lab
9. Tell teacher if anything spills or is broken
10. Clean up after lab & wipe down lab space
11. Only touch items / chemicals involved in your experiment.

While in the Lab:

- ⦿ Know the emergency escape route and alternate
- ⦿ Know the emergency spill procedure
- ⦿ Know the location of the first aid kit, eye wash station, shower, spill kits MSDS, and fire extinguisher

- ⦿ Identify EVERYTHING!
- ⦿ No food, beverages, or application of cosmetics
- ⦿ Report all injuries and accidents via SIP (insurance)
